# Introduction

The Community Futures East Interlake East Interlake Inc. Youth Micro Loan Program is an initiative offering business loans for students starting a new business. The program is designed to give students seeking employment the option of creating their own jobs.

The program provides loans of up to \$4,000.00 per business. Students in high school, community college and university can take advantage of these loans, as long as they remain actively enrolled as full time students and are at least 15 years of age. The lending rate will be based on Bank prime rate plus 2%. Loans that are paid back on time will have an opportunity to receive a loan through Community Futures East Interlake loan program at the reduced rate of Bank Prime plus 2%, providing the new loan is disbursed within one year of their graduation date.

To be eligible for a loan, students must complete a Youth Micro Loan Application and a business plan detailing a viable business venture. Community Futures East Interlake staff are available to assist students with this process.

Describe the business skills and experience you and/or your key partners bring to the business and each of your responsibilities. Describe the support services ie – accountant, mentor etc. you have in place.

**Competition:**

Who are your competitors (list all), what are their locations and how long have they been in business?

Explain why your customers will prefer your product or service to that of your competitors. (i.e. faster service, better quality, friendly, etc.)

**Customer Base:**

Describe your typical customer (eg. single females between the ages of 30 and 40 who make over \$30,000 per year and live within a 30 minute drive.)

Where will your customers come from (target market area) and what is the total population of this trading area?

**Marketing:**

Describe your marketing strategy (i.e. How will you reach your customers?). How will you advertise?

**Regulatory Environment:**

What insurance, government regulations, licenses, permits and other approvals apply to your business and have they been obtained? (Check with your local municipal office to ensure compliance to zoning, building and other by-laws which may be in effect in your area. You may also have to check with your closest regional Department of Environment office to ensure compliance and health standards.)

--

**Financial Planning:**

What will be your fixed monthly costs? (i.e. rent, phone, hydro, wages, etc.)

List and give values of other items (equity) that you already own and are bringing into the business (i.e. desk, automobile, equipment, tools, computer, etc.)
